

Join the BEST Center, Siemens BT, and College of DuPage to learn about:

- ✓ Typical BAS/controls technician job tasks and duties
- ✓ Siemens controls hardware/software and potential classroom applications
- ✓ Setting up a commercial HVAC lab

Sessions include:

- Overview of Siemens BAS system, components, network architecture, and classroom/lab exercises
- Tour of Siemens Executive Briefing Center
- Tour and discussion of new commercial HVAC instructional lab at College of DuPage

This workshop is FREE for faculty selected by application*. BEST Center and Siemens will cover transportation, meals and hotel costs for attendees. For more info, visit www.bestctr.org.
