

Join the BEST Center to learn about:

- the latest in building technology and tools from LBNL and UC Davis
- a national certification for high performance building technicians
- new developments in building performance programs and courses from across the nation.

Sessions include:

- Tour of the California Lighting Technology Center, Western Efficiency Cooling Center, and Zero Net Energy West Village at UC Davis
- Whole Building Systems, Interactions, and Energy Savings Opportunities
- Commercial Building Indoor Air Quality
- Fault Detection and Data Analytics
- Key Findings of Skill Standards for High Performance Building Technicians (HPBT)

This workshop is FREE for faculty selected by application. BEST Center will cover transportation, meals, and hotel costs for attendees. For more info, visit www.bestctr.org.
