

We have demand across the country for training of our products and solutions. We are looking for instructors interested in conducting training for contractors, distributors and system integrators.

2-Day EasyIO Training Agenda

- F Series Hardware Configurations & Upgrades
- CPT Tool Programming
- Drivers
- Sedona apps
- IT Networking, Security & WiFi

Minimum 6 students each class, average of 12.

We are also seeking contributors of online content for eLearning and we are seeking to collaborate in growing the visibility of building automation education programs.

If interested in discussing any of the above, contact Gina Elliott, VP Americas at gina@easyio.com or 619.322.5043 (EST).
